

# The Governor in Shida Kartli Met Adolescents

07 November 2018

Giorgi Khojevanishvili met students and graduate class pupils and talked about priority issues. The Governor provided them with the information about the planes of the future development of the region. The meeting was held in asking-replying mode.

The Governor talked about the issues of the environment protection, promoting of healthy life-style, the projects which are planned to be implemented in the region and promoting of tourism development. The adolescents also asked questions and introduced to the Governor their own important opinions about the significance of the informal education.

According to Giorgi Khojevanishvili, meetings like this will be often held as in Gori as with the adolescents living in other municipalities. "Our meeting was productive and interesting, we talked about priority issues, listened to the adolescents' initiatives. I should proudly say that we have clever and intellectual new generation. Young people's active involvement and participation in solving of certain issues is very important, they know best of all about the needs of the young generation. At any time we are ready to take into consideration and support ideas and initiatives of young people",-said Giorgi Khojevanishvili.
