

The Villages at the Occupation Line will Use 24-hour Water Supply

21 November 2018

The population of the villages at the occupation line of the Gori, Kaspi and Kareli Municipalities will be provided with 24-hour water supply. The works are being carried out by the Municipality Development Fund of the Ministry of Regional Development and Infrastructure by financing of the Investment Bank of Europe (EIB) and it costs around GEL 6 000 000. Bore wells, chlorators and pressure pipeline have already been arranged within the project in 17 villages at the occupation line in the Gori, Kareli and Kaspi Municipalities. The second stage of the works will begin in February, 2019. Giorgi Shengelaia,- An Executive Director of the Municipality Development Fund and Simon Guledani,-the Deputy of Shida Kartli Governor surveyed the current works at the place.
