

Planting Works are Going On in Gogebashvili Street

27 December 2018

The process of planting works are going on in newly rehabilitated Gogenashvili street. Giorgi Khojevanishvili,-Governor in Shida kartli and the Mayor of the Gori Municipality inspected the process.,Gogenashvili street has importantly been improved after its rehabilitation , sewage system has been changed, asphalted, dams have been arranged. Green plants are being planted nowadays which will improve the image of the street much more. We met with the young people who named caring after the environment and ecology as one of the priorities. We are ready to share and take into account all the opinions or the ideas which will be good for the town and the region, in general,-"said Khojevanishvili. Around 70 silver fir-trees will be planted in total. Planting works will have ben finished by the end of the month.
