

Natural Gas Equipment will be Examined In Shida Kartli Kindergartens, Schools, Medical and Other Institutions.

05 February 2019

Giorgi Khojevanishvili,-Shida Kartli State Representative and Shalva Kereselidze,- Mtskheta-Mtianeti State Representative met with the representatives of the company “Sokar Georgia”. The sides discussed about the enhancing the safety of natural gas consumption and reducing possible risks at the meeting.

The sides agreed that the representatives of the company “Sokar Georgia” will examine natural gas equipment in both regions for the purpose of prevention. First of all, checking the heaters placed in kindergartens, schools, medical, cultural and sports establishments have been planned. Other institutions will be examined gradually also.

„Safe consumption of natural gas is one of the main challenges in our country. It is obvious from the examples of the recent occasions. We hope that timely activities will prevent a number of hazards. The security of the population is important for us”, - said Giorgi Khojevanishvili.
