

The Center of Technical Inspection Has Been Opened in Ruisi

03 April 2019

Giorgi Khojevanishvili,-the State Representative in Shida Kartli and some other representatives of the local government was in “Greenway” technical inspection center and got familiar to the compulsory technical inspection process. According to him, the center of technical inspection helped create working places and also gave a chance to the local drivers to get all the necessary serviced just at the place.

Nine people were employed and about 2000 automobiles have already been technically inspected in Ruisi service center.
