

The football stadium was rehabilitated in the village of Mejvriskhevi

03 May 2019

Giorgi Khojevanishvili,-the State Representative in Shida Kartli together with Amiran Kristesiashvili,-his deputy, the Mayor of the Gori Municipality and the representative of Football Federation of Georgia attended the opening of the football stadium in the village of Mejvriskhevi. "The next stadium has been rehabilitated to support young people's healthy life. It should be noted that important steps are being taken in the village, especially in the village of the occupation line, which will activate the involvement of local youth in sports. "- noted the State Representative.

Within the framework of the project, the pitch was fenced, its cover was also installed, and the tabs and chairs were arranged. Veteran footballers and local self-government representatives took part in the friendly match which was held at the renewed stadium.
