

The Building Damaged by Natural Gas Explosion was Rehabilitated in Kareli

05 December 2019

The building damaged by natural gas explosion in the settlement of IDPs has been already rehabilitated in Kareli Municipality in November, 2019 and its population has come back to their houses. As a result, 25 apartments were damaged. Kareli Municipality City Hall rehabilitated the building within the deadline.

Giorgi Khojevanishvili,-Shida Kartli State Representative, his deputy,-Amiran Kristesiashvili and Zaza Guliashvili,-the Mayor of Kareli Municipality visited the place, looked round the building and met with the inhabitants. According to the government officials, except the rehabilitation of the block of flats, the residents raised several issues that will be resolved in the shortest possible time.
