

Galaktion's Lane was laid out in Gori

07 December 2019

Near the slope of Gori fortress, where a memorial plaque of Galaktion Tabidze was opened a few months ago, a red and white rose alley was laid out today. Gori Municipality Improvement Agency has installed metal constructions specifically for this area. Also 50 horse chestnut trees were planted along the square of "The Rider on the Lion".

Shida Kartli State Representative Giorgi Khojevanishvili, Gori Municipality Mayor, representatives of local self-government and community members participated in the planting action.

„I am glad that our town is getting more and more beautiful day after day. I am sure that the lane which has been laid out today, will be one of the most attractive places. We also have more good plans which will be implemented by the joint forces”, said Khojevanishvili.
