

Joint Project of USAD/Zrda and BP is being Implemented in the Village of Nigoza

23 January 2020

Within the joint project of USAID/Zrda and BP of Georgia , community development program, Shida Kartli State-representative Giorgi khojevanishvili and Director of USAID Mission Peter Vibler and Head of BP in Georgia Ana Devis visited the village of Nigoza at Kaspi Municipality and inspected the jointly supported project.

USAID/Zrda and BP Georgia are jointly implementing community development initiatives which are focused on the development of agriculture, business and community in 41 villages of Shida Kartli, Kvemo Kartli and Samtskhe-Javakheti.

„Our region has been collaborating with the international organizations for many years which supports timely and effective development of common goals . Dozens of locals have already benefited from the small grants program, which has helped them grow economically or professionally. We will continue our partnership and implementation of joint projects in the future,“-Giorgi Khojevanishvili said.

The current project is being implemented through the Biological Farming Association “Elkana” which is the partner of USAID/Zrda and BP Georgia in Shida Kartli region.
