

The process of distance learning is going constantly in Shida Kartli

03 April 2020

Shida Kartli State Representative Giorgi Khojevanishvili is in constant coordination with the heads of the region's resource centers. Another video involvement was held today. According to the representatives of the resource centers, all the applications required for distance learning were fully mastered, and in some cases, the teachers contact with their students by phone.

Giorgi Khojevanishvili also met with the Rector and lecturers of Gori State-Teaching University. He also talked to the students in video mode. According to the lecturers, the process is actively going on. They also mentioned that they have had the practice of distance learning method before and this has made this process even easier.

By the decision of the Interagency Coordinating Council under the leadership of the Prime Minister, the Ministry of Education, Science, Culture and Sports of Georgia has been instructed to strengthen distance learning methods in connection with the postponement of the educational process. The Ministry of Education, Science, Culture and Sports is offering public school administrators, teachers and students the opportunity to use more than 15 Microsoft products to promote distance learning to help them conduct online interactive lessons. Programs tailored to the distance learning process, including Teams, provide video tutorials, their recordings, assignments, group discussion, and sharing work files. The program also includes the arrangement of virtual classrooms and the use of a digital board, where several people will be able to put together draughts and drawings, exchange ideas and work on assignments.
