

Tomato greenhouse in Berbuki continues to operate smoothly

24 April 2020

In parallel with the prevention of the spread of coronavirus, agricultural work is being carried out intensively in the region. Due to the current period of spring works, according to the decision of the Interagency Coordinating Council, hourly movement of cars is allowed in order to continue agricultural activities for an uninterrupted period of time. At the same time, the operation of pesticide and agrochemical stores is running smoothly. These benefits are especially important for farmers working in the region. Shida Kartli State Representative Giorgi Khojewanishvili inspected and got familiar to the working process at Berbuki greenhouse in Gori Municipality. 50 locals are employed at the greenhouse. In addition to Georgia, the products grown in the greenhouse are also exported.

„, "Due to the state of emergency, special attention is paid to agriculture in the region. Residents have the opportunity to look after the lands properly and we do not have any delays in this regard. Residents have the opportunity to look after the lands properly and we do not have any delays in this regard. The municipalities will issue the appropriate permits in case of extra needs”,-said the State Representative. According to the decision of the Interagency Coordinating Council under the leadership of the Prime Minister, farmers will be able to move smoothly to carry out agricultural works. from 06:00 to 08:00 in the morning and from 18:00 to 19:00 in the evening.
