

SOCAR Energy Georgia donated food products to socially vulnerable families living in Shida Kartli

28 April 2020

The director of the company, Mahir Mamedov, met with Shida Kartli State Representative Giorgi Khojevanishvili and handed over food boxes for 300 beneficiaries. Food products provided by the company will be handed over to the families by the local self-government representatives.

“In parallel with the prevention of the spread of coronavirus, hundreds of people have already been provided with food and basic necessities as part of an initiative by various companies. At such times, cooperation between the private and public sectors is of great importance, so I would like to thank each and every company and SOCAR Energy Georgia for their outstanding social responsibility in this particular case,” said the State Representative.

As soon as the state of emergency was declared in the country, the company transferred 200,000 GEL to the StopCov Foundation.
