

An enterprise of biodegradable sacks has been launched in Gori

28 May 2020

Shida Kartli State Representative Giorgi Khojevanishvili visited the enterprise and got introduced to the producing process. The company ‘Eco Georgia’ is the participant of the state program – ‘Produce in Georgia’, which owns a land plot in Gori and 3355 sq.m. building for 1 GEL.

According to the representative of the enterprise, this is the only enterprise in Georgia, where not only biodegradable sacks, but also the raw materials needed for it are produced.

The investment cost of the enterprise is about 3 million GEL. Currently, 25 people are employed on the site, but more than 100 jobs are planned to be created in the future.
