

Population of the hailed villages will be helped by the government

19 May 2016

By the decision of Georgian government population of the hailed villages is already able to get the agricultural preparation on May of the current year.

There was a meeting about the mentioned issue in Gori. The deputy of agricultural minister Gocha Cofurishvili and active governor of Shida Kartli Ioseb Okromelidze met with the population. The meeting was also attended by the deputy governor, Amiran Shavshishvili who suggested to the population about the involvement in the state program of agricultural insurance.

The government representatives paid attention on the importance of the agricultural preparations, which gives the possibility to conduct the necessary works for the perennial plantation renewal.

Farmers are able to buy the preparations by agro cards with agro points in every shop which is involved in a program for landowners helping, conformable to the municipality.
