

Active process of gasifying continues in Kaspi municipality

22 May 2016

Another village of Kaspi municipality is actually gasified. Nowadays, gasifying process still actively continues in the village of Sasireti and will be finished soon. Ministry of energy with the procured support of World Bank gasified settlement of persecuted people and adjoining villages in Sasireti. Governor of Kaspi Municipality, Gocha Gochitashvili visited Bejitashvili family in Sasireti, who already consumed natural gas. The governor set fire to gas-stove with the family members.

Bejitashvili family thanked to the ministry of energy and to the administration of Shida Kartli for the help and attention around the gasifying process. They say that gasifying will improve their life condition and will help them to solve a lot of problems. Lia Bejitashvili said that natural gas would be a great help especially for the winter cold period.

Gasifying process will take a start within the nearest future in several villages of Kaspi municipality.
