

River Liakhvi put two houses under the threat of flooding in Shindisi

29 May 2016

After the high flood of the river Liakhvi two houses were put under the threat of inundation, in the village of Shindisi, Municipality of Gori. Inhabitants said that water level was raised during the midnight, consequently, ground was undermined and the river got close to the houses. The occurrence location was attended by the active governor of Shida Kartli, Ioseb Okromelidze with the local government representatives who promised to the families to start coast-protecting structure building to prevent upcoming threats. Inhabitants of the risk zones temporarily moved to neighbor houses after the few minutes of the river high flood. There is mobilized salvage service to accomplish necessary measures in any case.
