

# **Bredza-Atoci connecting 6km road construction process actively continues**

02 June 2016

Bredza-Atoci connecting 6km road construction process was attended by active governor of Shida Kartli, Ioseb Okromelidze and Kareli municipality governor, Zaza Guliashvili. The road construction covers 1 596 000 Gel which derived from "Regional Fund".

The active governor of Shida Kartli said that it is the first time of the road construction on this section.

"The local and central governments are conducting string of projects near the occupation zone villages to protect social and economical well-being of the population. There was not done any asphalt work up to this period before but now we already have roads with high standards, consequently, inhabitants of the adjusting villages will be able to move using this road soon. The local inhabitants are involved in the road construction and this is very important for their social well-being" - mentioned Ioseb Okromelidze.
