

A new kindergarten was built in Kvemo Khvedureti

03 June 2016

The current construction work processes has been attended by the active governor of Shida Kartli, Ioseb Okromelidze, Deputy of Governor Amiran Shavshvishvili and municipality governor Zaza Guliashvili. Kindergarten building was one of the main demands of the population, mentioned Guliashvili.

“The main principle of our work is to consider peoples demanding. Indeed, the most of the local population indicated on the necessity of kindergarten, consequently, our municipality tries everything of its possibilities to overcome the important challenges” – said Zaza Guliashvili.

The current construction work is being executed by LTD “Akhali Mshenebeli”. The kindergarten will meet modern standards and all necessary requirements. The institution can serve two groups of children; consequently, up to sixty children can be served – mentioned governor, Zaza Guliashvili. It should be mentioned that kindergarten is adapted for the people with disabilities. The project will be finished in august of the current year. Rehabilitation value is 95 000 Gel. In addition, municipality paid 23 000 Gel for the building.
