

A new 6 km road construction comes to the end in Kareli municipality

03 June 2016

The current construction work processes of Fca-Tamarasheni 6 Km road has been attended by the active governor of Shida Kartli, Ioseb Okromelidze, Deputy of Governor Amiran Shavshvishvili and municipality governor Zaza Guliashvili in Kvemo Shakshaketi village, Kareli municipality.

The road asphalt works are executed by LTD "Sagzao Samsheneblo Sammartvelo N1"- According to the project asphalt works will be finished in the nearest future, in July of the current year.

The project total cost covers 1 663 999 Gel. The mentioned project, as well as Bredza-Atoci connecting 6 Km road asphalt work, is executed with the support of "Regional Fund".

It should be mentioned that Tamarasheni and Fca villages are the adjoining settlements of the occupation border. There are also finished gasification and water projects with the road infrastructure in those villages.

"These kinds of strategic projects will lessen internal migration level and will support social condition of the population"- mentioned active governor, Ioseb Okromelidze.
