

A huge infrastructural construction has been started in Gori

01 August 2016

A huge sports infrastructure construction process has been started. Accordingly, there will be Canadian and Slovakian investment of 65 Million dollar.

Prime-minister mentioned that sports infrastructure development would play a great role recovering people's lifestyle.

There will be built multifunctional double-hall sport complexes in Batumi, Kutaisi, Gori and Telavi. Prime-minister called for the correct Public-Private-Partnership (PPP) model to protect competitive circumstances. PM indicated that the government should not be the ruler of this kind of infrastructure, consequently, within the frames of his demand infrastructure should be governed with the correct business model.

Sport and Youth minister, Tariel Khechikashvili mentioned that the neighbor countries have a great will of sport events and gatherings to be held in Georgia.

More than half billion has been spent on sports infrastructure which means that Government tries a lot to support Georgian sport development.
