

The new Governor Giorgi Khojevanishvili started his activities with the meetings of the population

27 August 2018

The new representative-governor held his first meeting with the population of one of the big villages of the region in Kareli municipality Ruisi. The Governor personally listened to the needs of the locals and discussed ways to the improvement of the existing situation together. Besides that, Giorgi Khojevanishvili introduced his own opinions and priorities of the region development to the population .

Shida Kartli Regional Governor observed large-scale repair and rehabilitation works of the road on the territory of Ruisi. 11km road cover will be laid, about 3000 meters drainage and other surrounding infrastructure can be arranged within the project. At this time, the 4-meter road asphalt works have already been completed. The current project for construction and rehabilitation of the central roads of the village Ruisi is financed from the Fund for Projects to be implemented in the Regions.
